

REMARKS

Claims 1-13 are pending in this application. The Examiner has rejected all pending claims as obvious under 35 U.S.C. § 103(a) in light of U.S. Patent No. 5,859,628 to Ross et al. ("Ross") in view of U.S. Patent No. 6,553,379 to Jaeger et al. ("Jaeger").

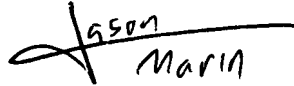

In rejecting the claims as obvious, the Examiner alleges that Ross teaches and discloses all of the elements of claims 1, 10-12, and 14-17 of the present application except for "a control switch which can be turned and pushed in." The examiner suggests that Jaeger teaches a user moving the curser by using a rotary switch, and selecting by pushing the same rotary switch.

Applicant has amended each of claims 1, 10-12, and 14-17 to include the additional element that application programs of the first page transition control (or first operation page) and second page transition control (or second operation page) are related to each other. Neither Ross nor Jaeger disclose, inherently, excitedly or clearly, this feature as recited in each of the independent claims as amended. Rather, the first and second pages disclosed in Ross and/or Jaeger are unrelated to each other. Thus, claims 1, 10-12 and 14-17, are not obvious in light of Ross in view of Jaeger.

For at least the reasons set forth above, Applicants respectfully submit that claims 1-17 are in condition for allowance. Reconsideration and prompt allowance of this application are respectfully requested. The Examiner is urged to telephone Applicants' undersigned counsel at the number noted below if it will advance the prosecution of this application, or with any suggestion to resolve any condition that would impede allowance. In the event that any extension of time is required, Applicants petition for that extension of time required to make this

response timely. Kindly charge any additional fee, or credit any surplus, to Deposit Account No. 50-0675, Order No. 848075-0066.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Jason Marin". The signature is written over a horizontal line.

Date: August 30, 2007
